

SUNNY COVE HONEY
LITTLE HARBOUR, NOVA SCOTIA

A decorative floral illustration in a light brown color, mirroring the one at the top, featuring a central stem with small flowers and leaves, branching out.

Sunny Cove Dairy Farm

Merigomish , NS Circa 1985

Sunny Cove Honey hives on the old farmland

Pollination Expansion program

Small Farm Acceleration Program

▶ Spring

Haskap pollination early May

Pollination

Started adding a Medium
super with a queen excluder

Screened Bottom Board

A soft-focus photograph of a lavender field. Several butterflies are visible: a large black and orange butterfly with white markings is perched on a lavender stem in the upper center; a yellow butterfly is in the middle right; a black and white butterfly is in the upper right; and a red and black butterfly is in the lower right. The background is a blurred expanse of lavender plants under a pale sky.

Summer

Not certified but follow organic principals

Overwinter Nucs. Made up by July 15

Start skimming honey end of july

Ross Rounds

Fall Honey Harvest

Another Load Ready for Processing

Before and After

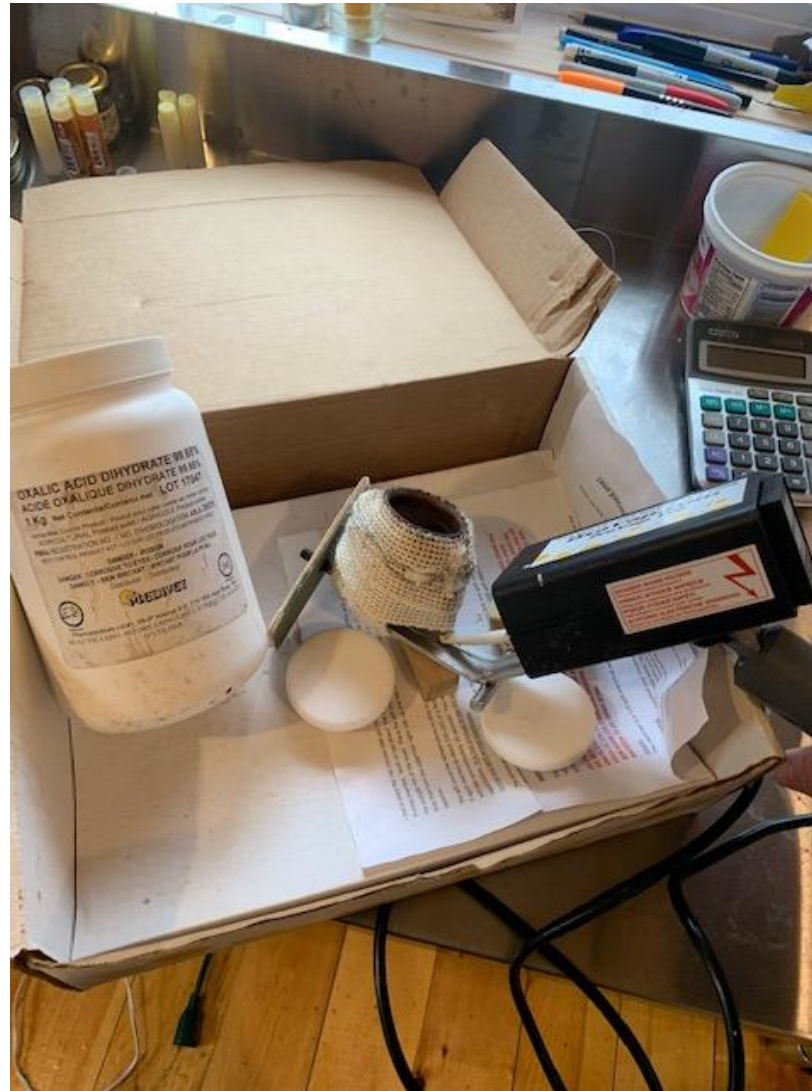

Double Brood Chambers VS Single brood Chamber

Fall Management

Medication

Inner cover becomes bottom board for the winter
